

Road Work Notice

PA State Route 208

To all it may concern,

At the request of the Pennsylvania Department of Transportation, Shields Asphalt Paving, Inc. is providing this notice to alert the community that road work will be occurring on State Route 208 in the coming weeks. The work zone will be the approximate 5 miles between the SR 208 and SR 551 intersection near the Shenango river in Pulaski to the intersection of SR 208 and SR 18 in Wilmington Twp near the Gas Station and The Cheese House. The work performed will be drainage upgrades, base repair, milling and resurfacing. Single lane restrictions will be required for most operations and are likely to cause minimal traffic delays. Work and lane restrictions will not start until 8am in the mornings. Please be alert for flaggers, stopped traffic and changing patterns. Also, please be on alert for our employees working on the road – slow down and save a life!

Weather permitting, Shields Asphalt Paving's contracted work is tentatively scheduled to begin May 8th, 2023 and should end at or around August 30th, 2023.

Thank you for your patience and cooperation during this project.

Sincerely,

Shields Asphalt Paving, Inc.
